

HYDRAULIEK 24

maakt het makkelijk

Technical Specifications:

- Flow Capacity: 160 L/min
- Maximum Pressure: 300 bar
- 150-Liter Hydraulic Tank
- 100-Liter Fuel Tank
- Variable Pump with Electronic Control
- Dual Cooler (Engine Coolant & Hydraulic Oil)
- Automatic RPM Control
- Sound-Absorbing Enclosure
- Stage V 37 Kw Kubota Engine
- Energy-Saving Mode (RPM and Pressure Adjust Automatically Based on Power Demand)
- Maximum Output and Pressure Digitally Adjustable

The displayed installation is just an example of the possible configurations.
